PROJECT OBJECTIVES

The objective of The Mystery Puzzle Adventure website is to provide users with an engaging and entertaining experience by combining interactive puzzles with a compelling mystery story. Through solving puzzles, users unlock different parts of the narrative, revealing clues and progressing the plot. The website aims to challenge users' problem-solving skills, enhance their enjoyment with intriguing hints and story elements, and ultimately deliver a delightful and humorous twist at the end of the adventure.

SOFTWARE REQUIREMENTS:

- HTML
- CSS
- JavaScript.

PROJECT OUTCOMES:

- Users improve their critical thinking and puzzle-solving abilities.
- Users experience an interactive and immersive narrative that unfolds with each puzzle.
- The humorous twist at the end provides a fun and memorable conclusion
- The project showcases the effective use of HTML, CSS, and JavaScript to create a seamless user experience.
- Users enjoy interactive hints and progress-tracking features, enhancing engagement.
- The project stimulates creativity and provides entertainment through an intriguing and lighthearted mystery.

CO ORDINATOR:

M.Thejaswee

CERTIFICATION:

Students who have successfully presented their Website in the Web Technology Expo, 2024 were awarded with the certificate of participation.
